

直流电源

DC power supply units

- 故障防护装置
 - 维护工作量少
 - 适用于恶劣的工作环境
 - 防护等级高
-
- Fail-safe
 - Low-maintenance
 - Robust design for aggressive environments
 - High protection class

油冷式可控硅电源-型号: DTOG

可控硅整流器安装在带油冷却的结构内，结构合理（防护等级高），稳定可靠。所有功率元件安装在冷却油中（IP54），触发和控制装置安放于独立的控制箱内。

应用范围：

- 镀铜
- 镀锡
- 蚀刻
- 镀镍
- 脱脂
- 氧化

Thyristor oil-cooled-Type: DTOG

Thyristor controlled rectifier in oil-cooled construction. It is distinguished by robust construction (high protection class) as well as its high reliability. All power elements are built in oil (IP 54). The triggering and control were built in a separate control cabinet.

Application range:

- Copper plating
- Tin plating
- Etching
- Nickel plating
- Degreasing
- Anodising

BEFELD SYSTEME
SURFACE FINISHING TECHNOLOGIES
